# Busy Like a Bee: Parent Instruction Sheet

## Welcome!

Thank you for choosing the Busy like a Bee kit!

This week, you and your child will explore God's creation, learn about pollination, and discover how God calls us to be busy and helpful in His world.

## Here's a suggested 5-day plan to guide you:

### Day 1: Bible and Science Lesson

- Read the Busy like a Bee: Bible and Science Lesson aloud together.
- Read and Discuss the Memory Verse.
- Talk about how bees are special helpers in God's world.

### Day 2: Craft Activity

- Complete the Bee Craft together.
- While crafting, remind your child that every small job they do with love matters to God!

### Day 3: Nature Observation

- Spend a few minutes outside looking for flowers, bees, or other pollinators (or watch a short video if weather doesn't allow).
- Complete the Today I Observed worksheet.

### Day 4: Memory Work

- Practice tracing the Memory Verse with the Tracing Worksheet.

### Day 5: Color, Prayer and Review

- Read the Mini Prayer Card together.
- Color the Bee Coloring Page
- Celebrate all your learning with the Certificate of Completion!

### Tips for Success:

- Keep activities short and sweet – about 15–20 minutes a day is perfect for this age group!
- Feel free to adjust the pace to fit your child's interest and attention span.
- Celebrate small successes – planting seeds of faith happens one little step at a time!

# God Made the Stars:

## Parent Instruction Sheet

### Welcome!

Thank you for choosing the God Made the Stars kit!

This week, you and your child will look up and wonder at the night sky—just like Abraham did long ago. You'll explore the science of stars and the amazing truth that God created each one with care and purpose... and He made your child just as special.

### Here's a suggested 5-day plan to guide you:

#### Day 1: Bible and Science Lesson

- Read the God Made the Stars Bible and Science Lesson together.
- Read and Discuss the Memory Verse.
- Talk about how God made the stars and set them in the sky to shine—and how we are called to shine, too.

#### Day 2: Craft Activity

- Complete the Star Craft together.
- As you work, talk about how each star is different, and yet they all light up the night—just like we each have a part to play in God's plan.

#### Day 3: Nature Observation

- If possible, go outside at night to look at the stars. If not, use a video or star map.
- Point out constellations or just enjoy the beauty of the sky.
- Complete the Today I Observed worksheet.

#### Day 4: Memory Work

- Practice tracing the Memory Verse with the Tracing Worksheet.

#### Day 5: Color, Prayer and Review

- Read the Mini Prayer Card together.
- Color the God Made the Stars Coloring Page
- Celebrate all your learning with the Certificate of Completion!

### Tips for Success:

- Keep activities short and sweet – about 15–20 minutes a day is perfect for this age group!
- Feel free to adjust the pace to fit your child's interest and attention span.
- Celebrate small successes – planting seeds of faith happens one little step at a time!

# Bread of Life:

## Parent Instruction Sheet

### Welcome!

Thank you for choosing the Bread of Life kit!

This week, you and your child will learn how Jesus is the Bread of Life—and how God uses everyday things like bread and baking to teach us about faith, provision, and growth. As you explore Scripture and bake together, your child will also discover how yeast works and why it reminds us of God’s invisible but powerful work in our lives.

### Here’s a suggested 5-day plan to guide you:

#### Day 1: Bible and Science Lesson

- Read the Bread of Life Bible and Science Lesson together.
- Read and Discuss the Memory Verse.
- Talk about how yeast is a living organism that makes bread rise—and how Jesus fills and strengthens us as the Bread of Life.

#### Day 2: Baking Activity

- Follow the Bread of Life Recipe to make your own bread.
- Observe how the dough rises and grows.
- Talk about how God uses even small things—like yeast—to do big things in our lives.

#### Day 3: Nature Observation

- Go on a nature walk or explore ingredients that grow from the earth (like grains).
- Talk about how God created everything we need for food.
- Complete the I Observed worksheet.

#### Day 4: Memory Work

- Practice tracing the Memory Verse with the Tracing Worksheet.

#### Day 5: Color, Prayer and Review

- Read the Mini Prayer Card together.
- Color the Greatest Gift Coloring Page.
- Celebrate with the Certificate of Completion!

### Tips for Success:

- Keep activities short and sweet — about 15–20 minutes a day is perfect for this age group!
- Feel free to adjust the pace to fit your child’s interest and attention span.
- Celebrate small successes — planting seeds of faith happens one little step at a time!

# New Life in Christ:

## Parent Instruction Sheet

### Welcome!

Thank you for choosing the New Life in Christ kit!

This week, you and your child will explore the incredible transformation of a caterpillar into a butterfly—and how it beautifully represents the new life we have in Jesus. Just like the butterfly, we are made new when we follow Him!

### Here's a suggested 5-day plan to guide you:

#### Day 1: Bible and Science Lesson

- Read the New Life in Christ Bible and Science Lesson together.
- Read and Discuss the Memory Verse.
- Talk about how the butterfly's transformation is a symbol of the change Jesus brings to our hearts and lives.

#### Day 2: Craft Activity

- Complete the New Life in Christ Craft together.
- As you create, talk about how God has a plan for our growth and how we can trust Him as we change and grow.

#### Day 3: Nature Observation

- Go outside to look for butterflies, caterpillars, or signs of new life.
- If you can't find any, watch a time-lapse video of the butterfly life cycle.
- Complete the Today I Observed worksheet.

#### Day 4: Memory Work

- Practice tracing the Memory Verse with the Tracing Worksheet.

#### Day 5: Color, Prayer and Review

- Read the Mini Prayer Card together.
- Color the New Life in Christ Coloring Page.
- Celebrate all your learning with the Certificate of Completion!

### Tips for Success:

- Keep activities short and sweet — about 15–20 minutes a day is perfect for this age group!
- Feel free to adjust the pace to fit your child's interest and attention span.
- Celebrate small successes — planting seeds of faith happens one little step at a time!
